

Practical 05

Exercise 01:

1,1)

```
Start Page x Interfacemain.java x MyFirstInterface
Source History
1
2 package com.mycompany.interfacemain;
3
4 public interface MyFirstInterface
5 {
6     public static final int x=10;
7 }
```

1,2)

```
Start Page x Interfacemain.java x MyFirstInterface.java x interfaceimplementet.java x
Source History
1
2 package com.mycompany.interfacemain;
3
4 public interface MyFirstInterface
5 {
6     public static final int x=10; //answer is =10
7
8     abstract void display(); //
9
10 }
```

1,3)

```
Start Page x Interfacemain.java x MyFirstInterface.java x interfaceimplementet.java x
Source History
1
2 package com.mycompany.interfacemain;
3
4 import static com.mycompany.interfacemain.MyFirstInterface.x;
5
6 public class interfaceimplementet implements MyInterface
7 {
8
9     public void display() {
10         x=9; //since there is the final keyword, you can not add other values.
11         System.out.println(x);
12     }
13
14 }
```
